

WHO ARE WE?

South Pacific Aviation Training Institute is a 100% locally owned Pilot Training Institute in Fiji. We are a Cessna Pilot Center staffed with highly motivated flight instructors and ground instructors. Our training facility is located at Nausori International Airport.

Our student pilots can develop their proficiency at a not-too-crowded airport, yet be exposed to the rigorous demands of flying in major international airports.

Our fleet is one of the largest amongst the training schools in Fiji with:

4 Cessna 172S

2 BN2A Islanders

We welcome and look forward to answer any questions or concerns you might have about training with us.
